---

Birthdate: 19th July 1983.  
Age: 32 years old.  
Based in: Barcelona, Spain.  
Nationality: Spain.

## Introduction

---

I am curious, always learning, results-oriented senior software architect with over 8 years of experience involving agile software development practices, analysis, design, implementation and testing of Internet applications (desktop and mobile). I make it my goal to create software with the user in mind, creating applications with a useable and intuitive user interface experience. I also understand the importance of creating highly readable and easily maintainable source code. I am constantly striving to learn new technologies and look to ways to better myself in this rapidly changing industry.

## Professional Experience

---

Since February 2016	<b>Senior Front End Developer</b> <i>Vicens Vives Digital S.A., Barcelona</i>
	<p>Vicens Vives is well known editorial in Spain, now focused in e-learning employing more than 50 people in Vicens Vives Digital.</p> <ul style="list-style-type: none"><li>- I helped finishing the new version of the tool used by more than 20 in house workers to publish content online in my first 2 months.</li><li>- I helped the team to integrate tests with mocha, jasmine and phantom,</li><li>- I brought the build first approach for javascript projects.</li><li>- I brought good software engineering practices to the team: git branches, automatic testing, continuous integration in DEV.</li></ul> <ul style="list-style-type: none"><li>+ Grunt tasks</li><li>+ Javascript with Moustache, Require, jQuery, etc.. and some Angular.</li><li>+ Electron mini apps</li><li>+ Jasmine, mocha tests</li><li>+ NodeJs (Prototypes and jSon mockups)</li><li>+ Devops tasks</li></ul>
